

MG09 Professional Roller Ironer – 250 cm Flatwork Ironing Machine

The MG09 Professional Roller Ironer is a high-efficiency flatwork ironing machine designed for commercial laundries that require professional finishing quality with a reduced footprint. Ideal for hotels, care homes, healthcare facilities and on-premise laundries, the MG09 delivers consistent results with low energy consumption.

Key Commercial Benefits

- 250 cm roller width suitable for medium to high volume flatwork
- Capable of ironing linen with up to 40–45% residual humidity
- Extruded and anodised aluminium soleplate for smooth, long lasting performance
- Vacuum assisted ironing with adjustable roller pressure and speed
- Energy efficient electric heating rated A++
- Electronic control system with programmable cycles

Technical Specifications

Roller Width	250 cm (98 in)
Roller Diameter	40 cm (16 in)
Heating Type	Electric – A++ Energy Rated
Average Consumption	22 kW/h
Maximum Power	37.2 kW
Electrical Supply	380–415 V, 3 Phase
Roller Speed	1.8 – 4.4 m/min (adjustable)
Loading Type	Single frontal
Vacuum System	Integrated vacuum motor
Product Dimensions (W×D×H)	342 × 94 × 120 cm
Product Weight	663 kg
Shipping Weight	748 kg
Warranty	5 Years
