

IRONING SUPPLIES

The Ironing Equipment Company

Magpie 5-litre Boiler, Iron & Accessories

Description

This is a professional iron with integral boiler. It not only gives great results but it's completely mobile too. It can also be used as a steamer and can be fitted with a steam spotting gun to remove surface stains on clothing, carpets etc. The bottle below is for safely blowing down the boiler, collecting all the wastewater and any limescale that blows out under high pressure.

Ironing using our powerful steam iron relaxes the fibres, thus taking out the most stubborn creases. This Magpie Ironing System makes ironing easy. You may own an Ironing Company, have a large household, run a small bed and breakfast establishment or even own a hotel - whatever your circumstances are, we know that quality is everything. This Magpie Ironing System will help you to give a long lasting and professional ironing finish.

Included Components

- Magpie Boiler
- Draining Blow Down Bottle
- American Ironing Shoe
- Cable Holder
