Supplied with a FREE IRON ATTACHMENT, COVER, FOAM, and FILTER

Full 24 months warranty, including delivery and collection to and from your home. (12-month commercial warranty dependent on volume usage) Excellent after-service.

Fast heating time of 2.5 minutes. Built for long-term heavy use. This press now includes a FREE

iron attachment (see pictures), as well as a FREE Anti-Scale Water Filter Cartridge, Replacement Cover & Replacement Foam Underfelt. Easy to carry and store. Waterproof and washable cover. Can be used as a total dry press or with automatic steam. When pressing down, it's equivalent to 46kg of pressure (or 23g per cubic metre). Steam function: Powerful steam output of 90g per minute, and a booster steam output of 120g per minute, without any water dripping. Strong burst of automatic steam: Fast heat-up time. Can steam within 2.5 minutes of being switched on. Powerful steam output: almost no water will be sprayed out besides for steam. As you press the handle down to a half-closed position, it emits steam automatically. Digital control and display: Electronic control for precise ironing temperature. Temperature range from 60°C - 220°C.

Opening angle: A huge opening angle means there is ample space for bulky fabrics and large items like double sheets etc.

It also helps prevent the user from getting hurt whilst operating it.

Safety: Automatic cut-off after 15 seconds in a closed position.

Automatic cut-off after sitting idle for 15 minutes.

Overheat protection inside the machine.

Handle: Very large strong handle with extra thickness to make operation more comfortable and smooth. Safety lock on handle.

Pressing operations: The handle lifts up automatically, to safely protect fabrics from overheating. Its unique pressing system makes ironing even easier and smoother.

Water tank & anti-scale water filter: Water tank has a massive capacity of 800ml.

Unique anti-scale filter to extend lifetime of machine and steam function.

Very easy to replace water filter cartridge.

The tank can be taken out completely for easy refill.

The tank can be filled whilst ironing.

Plenty Of Space At The Back Of The Board: Makes ironing sheets and tablecloths so simple. Low

Power Use: Our presses use very little energy, about the same as a normal iron, thanks to its

special heating plate. **Manufacturer's maximum recommended usage: 600 hours a year.**

Cost: (including free UK delivery)
