

TS04 RA Heated Vacuum & Blowing Ironing Table

with 3.5L Copper Boiler + Professional Iron + Sleeve Arm

A high-output, all-in-one ironing station engineered for daily professional use. Heated table surface, powerful vacuum extraction, blowing function for sensitive fabrics, and a 3.5 litre copper steam boiler for consistent dry steam performance.

Vacuum + Blow

2× 150W engines

Heated surface

Thermostat 30–90°C

3.5L copper boiler

Anti-scale element, 1800W

3 bar steam

850W professional iron

Operational benefits

- **Faster finishing:** Vacuum removes steam condensation and holds garments flat for quicker, sharper results.
- **Better fabric care:** Blowing function helps treat velvet and dark garments to reduce shine/marks and revive wool fibres.
- **All-day output:** 3.5L copper boiler with anti-scale element and 1800W power for steady steam production.
- **Professional ergonomics:** Integrated sleeve arm (vacuum/blow/heated) and robust iron rest for smooth workflows.
- **Continuous operation:** Boiler can be refilled while still in use.

Table & control

- Heated board surface with automatic regulation (thermostat adjustable 30°C to 90°C)
- Board measures **112 × 42 cm**
- Fixed working height: **90 cm**
- Folds away vertically
- Steam pipe support included
- Sturdy base with shelf for ironed garments

Vacuum / blowing performance

- **Two engines:** vacuum + blowing, **150W each**
- Vacuum: improves contact and removes moisture/condensation
- Blowing: warm air jet for velvet/dark garments; helps reduce gloss and revive fibres
- Includes **vacuum, blowing and heated sleeve arm**

3.5L copper boiler

- Energy-saving **3.5 litre copper boiler**
- **Anti-scale heating element**
- **Boiler power:** 1800W
- **Working pressure:** 3 bar
- Refillable while in use

Professional iron

- **Iron power:** 850W
- Dry steam output for consistent finishing
- Heat shield + removable iron rest
- Ready-steam + water-level warning lights
- Adjustable steam jet
- Suitable for vertical ironing

Technical specification

Model / SKU	TS04 RA / TS04RA
System type	Heated ironing table with vacuum & blowing + built-in boiler + professional iron + sleeve arm
Board dimensions	112 × 42 cm
Iron rest/support size	36 × 16 cm
Board height	90 cm (fixed)
Vacuum / blowing motors	2 × 150W (vacuum + blowing)
Table temperature control	Thermostat adjustable 30°C to 90°C
Boiler capacity	3.5 litre (copper)
Boiler power	1800W
Steam working pressure	3 bar
Iron power	850W
Energy class	A++
Weight	36 kg
Warranty	3 years
Country of origin	Italy

Typical applications

- Small laundries & garment care specialists
- Hotels, B&Bs, housekeeping departments
- Care homes & assisted living facilities
- Professional ironing businesses (high daily throughput)
