

SAMSUNG

WD18DB8995BZT1 Bespoke AI
All-in-One Heat Pump Washer/Dryer

Product Highlights
Power supply: 13 amp plug
Washing/Drying capacity: 18kg / 11kg
Dimensions: W686 x D875 x H1110mm
Maximum spin speed: 1000 RPM
Programmes: 22 (including AI Wash & Dry, Eco 40-60, Super Speed, Sanitize, Less Microfibre, and Pet Care)
Energy usage at full load: 2.293 kWh per cycle*
Water usage at full load: 98 Litres per cycle*
Wash & dry duration: 98 minutes per cycle (3kg load)**
Water supply: Cold water connection only
Motor type: Digital inverter technology (Backed by 20 year warranty on component parts)
Warranty: 2 Years Parts and Labour

All-in-One Convenience: The Samsung Bespoke AI All-in-One combines washing and drying in a single, efficient appliance, streamlining the laundry process and saving valuable space. No need to transfer clothes between machines - this compact unit offers the functionality of two appliances in one. Ideal for businesses that need to optimise space without sacrificing performance.

Fast & Efficient Performance: Complete a full laundry cycle in just 98 minutes with the Super Speed feature, washing in 28 minutes and drying in 70. Heat Pump technology cuts energy use by up to 50%, while exceeding A Grade energy efficiency by up to 20%. These innovations ensure quicker, eco-friendly cycles that lower running costs. The Digital Inverter Motor adds quiet, durable, and energy-efficient performance, backed by a 20-year warranty for long-term reliability.

Tailored for **light to medium-duty** use, the WD18DB8995BZT1 serves as the perfect solution for a wide range of small businesses:

Care Homes, Sports & Fitness Clubs, Salons, Hotels, B&Bs, Restaurants, & Laundromats.

Main Features	
GTIN number	
Washing/drying capacity	18kg / 11kg
Maximum spin speed	1000 RPM
Programmes	22
Exterior finish	Dark Silver Steel
Door	Black Deco + Door
Drum material/type	Stainless Steel / Swirl+
User interface	LED
Panel language	Symbol / English
Water supply	Cold fill only
Draining system	Drain pump
Drying technology	Heat pump
Plug type	UK 13 amp plug
WiFi embedded	Yes
Vibration reduction (VRT+)	Yes

Technical & Performance Features	
Gross & nett weight	152kg / 147kg
Product dimensions (mm)	W686 x D875 x H1110
Packed dimensions (mm)	W746 x D915 x H1250
Voltage	220-240V
Frequency	50 Hz
Energy usage at full load	2.293 kWh per cycle*
Water usage at full load	98 Litres per cycle*
Washing/drying duration (Per cycle)	98 minutes (3kg load)**
	523 minutes (Full load)*
Spin noise level	72 dBA
Spin efficiency	B
Noise efficiency class	A
Energy efficiency class	A
Internal drum light	Yes
Type of motor	Digital Inverter

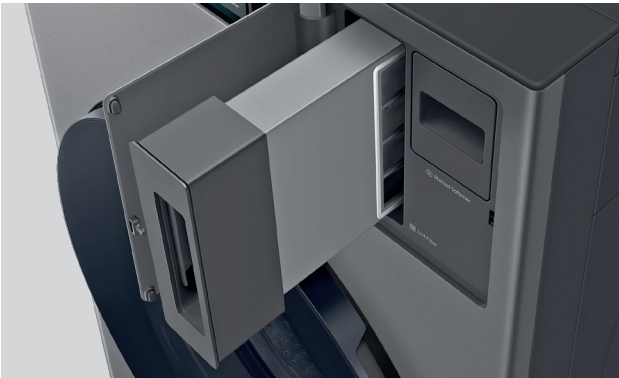

Intelligent AI Wash & Dry: Maximise efficiency with AI Opti Wash & Dry™, which adjusts water, detergent, and drying settings based on load weight, fabric type, and soil levels. AI EcoBubble™ improves cleaning by turning detergent into bubbles that penetrate fabric quickly for a thorough clean at lower temperatures. Meanwhile, the Flex Auto Dispense system holds detergent for up to 47 loads and dispenses the precise amount needed, minimising waste.

Smart Control & Connectivity: Streamline laundry management with smart controls and connectivity options. Use Samsung Bixby voice commands for effortless operation, or manage cycles and monitor energy use via the SmartThings app. This integration personalises washing and drying cycles based on your preferences, ensuring optimal fabric care. Ideal for businesses seeking efficiency and ease of operation without constant manual input.

Advanced Hygiene Solutions: Ensure cleanliness with advanced maintenance features. The Steam Wash cycle removes tough stains without pre-treatment, while the Auto Open Door releases humidity post-cycle to prevent damp odours. Self Clean+ keeps the drum hygienically clean by eliminating bacteria and odours, and Auto Condenser Cleaning keeps the heat exchanger lint-free for efficient drying.
