

3.5 Litre Comel Steam Iron & Boiler

Brand: [Comel Ironing Equipment](#) SKU: 2LT5492

"...powerful, efficient, effortless ironing..."

Description

This superb boiler and iron hold approximately 2.9 litres of water which provides about 4-5 hours' worth of continuous ironing between refills. The boiler also features a blow down valve which lets you refill as soon as empty. A fast, easy to use, reliable commercial iron made by Comel in Italy.

Who is this ideal for?

If you iron for 4-8 hrs a day, this iron will do a great job. It'll probably need refilling once for a whole day of ironing. This iron is ideal for use in environments like:

- **Ironing Services**
- **Small Guest Houses**
- **Care Homes**
- **Theatres (Costume departments)**

What our expert says...

The capacity of the boiler on the Snail 3 is perfect for two 4-hour sessions of ironing a day. With the blow down valve, you'll soon appreciate the speed between refills – we had it down to less than 3 minutes! Topping up with boiling water from a kettle will keep your downtime to a minimum so you can iron for longer. A proper iron for a busy environment. If you're thinking about a smaller iron, like the 2 litre Snail, re-consider. It's worth the small extra cost for the extra useability you'll get out of this one. Highly recommended.

Specifications
